Education

B.Tech – Computer Science and Engineering (AI)

Amrita Vishwa Vidyapeetham, Coimbatore

CGPA: 7.75 / 10

2023 – 2027

Higher Secondary Certificate

Petit Seminaire Hr. Sec School, Puducherry

83.5%

2023

Technical Skills

- **Programming:** C, C++, Python, javascript, HTML, CSS, ReactJS, Data Structures & Algorithms
- **Databases:** SQL, PostgreSQL, MongoDB
- **AI:** ML, DL, Computer vision, NLP, LLMs, Transformers
- **ML Frameworks:** PyTorch, TensorFlow, Hugging Face, Scikit-learn, Keras
- **Big data & Cloud:** Apache Kafka, Spark, HDFS, Azure, Docker, Git & Github

Projects

1. NLP-Telugu Multi-Turn Dialogue [GitHub](#)

Mar 2026

- Developed a domain-specialized prompting framework for Telugu multi-turn dialogue generation, benchmarking Gemma 3 and Sarvam-1 models on the IndicDialogue corpus.
- Constructed an end-to-end system utilizing Gemma 3, MuRIL embeddings, and FAISS Vector DB to achieve 99% semantic fidelity (BERTScore) across 10,000+ dialogue samples.

2. Bluesky-sentiment-Analysis [GitHub](#)

Feb 2026

- Scalable Lambda Architecture: Built a real-time pipeline using Kafka, Spark, and HDFS to process the Bluesky firehose with sub-2-second latency and 100% data durability.
- Hybrid AI & Infrastructure: Developed a RoBERTa-based sentiment analyzer with rule-based logic, deployed via Docker and Airflow with live Grafana/Superset visualizations.

3. SQL-Fitness Tracker [GitHub](#)

Dec 2025

- Developed a calorie and nutrition tracking website using PostgreSQL databases, ReactJS, and Node.js.
- Added an AI chatbot to provide meal suggestions and nutrition insights using NLP prompts.
- Created dashboards to visualize daily calorie intake, trends, and nutrient balance.
- Optimized backend API endpoints for high-performance food search and tracking.

Experiences

Research Intern

Dec 2025 – Mar 2026

- Worked on EEG-based BCI applications, including P300 speller and motor imagery tasks at Amrita Vishwa Vidyapeetham Coimbatore. Gained hands-on experience in EEG signal acquisition using Emotiv Epoch X, demonstrating keen interest and developing relevant technical skills.

Achievements

- **DravidianLangTech 2026 (May):** Authored an accepted research paper on **NLP Telugu Multi-Turn Dialogue**, introducing a novel Rasa-guided prompting framework for low-resource languages.
- **IEEE RECCAP 2026 (March):** Authored an accepted paper on **Multi-Level Domain Adaptation** for subject-independent BCI, utilizing a hierarchical DANN (CNN-LSTM + Attention) and contrastive learning to outperform benchmarks on the GIB-UVA dataset.
